## **Integrated Management System Objectives Statement**

At Logiqube Global Private Limited, our commitment to excellence in quality, health, safety, and environmental responsibility is reflected through the measurable objectives we establish as part of our ISO-aligned Integrated Management System (IMS). These objectives guide our daily operations, decision-making, and continual improvement efforts across all levels of the organization.

We ensure our objectives are SMART – Specific, Measurable, Achievable, Relevant, and Time-bound – and that they are reviewed periodically to align with our strategic goals, legal requirements, stakeholder expectations, and sustainability vision.

### **Health, Safety & Environment (HSE) Objectives**

#### **1. Zero Reportable Incidents**

Achieve zero reportable workplace injuries and incidents.

#### **2. Six Monthly Risk Assessments**

Conduct and document workplace risk assessments in all departments at least once per quarter to identify and mitigate hazards.

#### **3. Environmental Impact Reduction**

Reduce office paper usage and plastic waste by 20% by March 2026, compared to the 2024–25 baseline.

#### **4. Resource Efficiency Monitoring**

Track and report monthly energy and water usage in all offices, with a target to reduce combined consumption by 10% within 12 months.

### **Logiqube Global Private Limited**

## Quality Objectives

### 1. Customer Satisfaction $\geq$ 80%

Maintain a minimum 80% customer satisfaction rating (measured via quarterly surveys or feedback forms).

### 2. Project Delivery On-Time Rate $\geq$ 95%

Ensure that at least 95% of all client deliverables and milestones are completed on or before the committed timelines.

### 3. Sales Growth

Ensure that annual sales growth year-on-year is not less than 15%. These objectives are monitored, measured, and reviewed regularly by top management as part of our continual improvement process to ensure alignment with our mission, compliance obligations, and customer expectations.
